

EXELON[®] PATCH
(RIVASTIGMINE TRANSDERMAL PATCH)
INSTRUCTIONS FOR USE AND PATIENT
DIARY

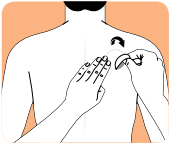

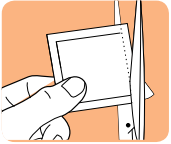

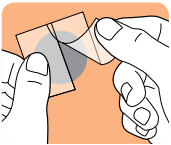

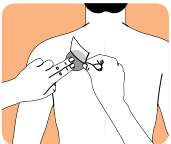

INSTRUCTIONS FOR USE^{1,2}

- If you have any questions or require more information, please read the package information leaflet that came with the medicine.
- If you are not sure about anything, please ask your doctor or pharmacist.

Important to remember

- Take off the previous patch before putting one new patch on.
- Only one patch per day.
- Do not cut the patch into pieces.
- Press the patch firmly in place for at least 30 seconds using the palm of the hand.

How to apply

1. Carefully remove the existing patch before putting on one new patch. 
2. Remove the new patch from the sachet. 
3. Peel one side of the protective liner off the patch. 
4. Stick the patch on the upper or lower back, upper arm, or chest and peel off the protective liner. 
5. Press the patch firmly in place for at least 30 seconds. 

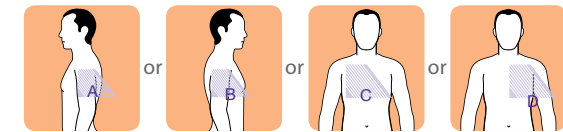

Where to apply

Take off the previous patch before putting one new patch on.

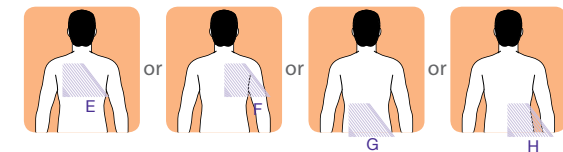

Apply one new patch in one of the following zones every day.

You can use the same zone (A or B or C or D or E or F or G or H), but do not use the same exact spot within the same zone.

Front:
