Please be informed that Teva UK Ltd. is recalling all remaining stock of the batches listed above because higher than expected levels of degradation products were detected during routine stability studies. Although there are currently no concerns relating to patient safety, it is possible that degradation products may exceed specification towards the end of the shelf-life.

In Malta, this recall is being carried out to pharmacy level by CPSU under the supervision of the Medicines Authority.

Thank you for your cooperation. For any clarification, please do not hesitate to call the undersigned.

Yours faithfully,

S Serge
Medicines Inspector
