Unpaid placements which are part of a course leading to a degree shall be declared in section 6 but do not constitute employment nor a conflict. Pharmacies are not defined as pharmaceutical industry as long as the pharmacy is not part of a structure which includes other licenses issued by or on recommendation by the Malta Medicines Authority such as Good Manufacturing Practice (GMP) or Good Distribution Practice (GDP).

⁴ Three years is the cooling off period but you may provide information on interests over 3 years.

⁵ If these financial interests are in the form of funds and they are not diversified (i.e., they are exclusively based on the pharmaceutical sector) and are not independently managed (i.e., the investor has influence on their financial management), then the interest has to be declared and funds must be divested. If these financial instruments or funds are not diversified and independently managed, then the employee will be restricted from carrying out any work related to that pharmaceutical company/ies associated with the fund/financial instrument.
