

You're receiving this starter kit because your child has been prescribed vosoritide. Vosoritide is a prescription medicine used for the treatment of achondroplasia in children 4 months of age and older whose bones are still growing. This kit contains the following information and supplies:

- A brochure with information about achondroplasia, vosoritide and side effects
- Vosoritide administration information with details on how to manage your child's treatment
- A placemat to help you organise the medicine and supplies before giving vosoritide injections
- An injection calendar to help you keep track of treatment

Please see the important safety information in the enclosed materials. Please see accompanying package leaflet.

This kit is only for caregivers of patients who have been prescribed vosoritide. Always refer to the package leaflet before beginning treatment with vosoritide. If you have any questions, please discuss them with your child's doctor.

Reporting of side effects: If your child gets any side effects, talk to your child's doctor or nurse. This includes any possible side effects not listed in the package leaflet. By reporting side effects you can help provide more information on the safety of this medicine.

▼ This medicinal product is subject to additional monitoring. This will allow quick identification of new safety information. You can help by reporting any side effects directly to BioMarin via drugsafety@bmrn.com; Fax: +1-415-532-3144 or Tel: +1-415-506-6179. Reporting of side effects is also possible via national reporting systems.

Suspected Adverse Drug Reactions (side effects) or medication errors may be reported using the Medicines Authority ADR reporting form, which is available online at <http://www.medicinesauthority.gov.mt/adrportal>, and sent by post or email to: P. Pharmacovigilance Section at Post-Licensing Directorate, Medicines Authority, Sir Temi Zammit Buildings, Malta Life Sciences Park, San Ġwann SGN 3000 E; postlicensing.medicinesauthority@gov.mt
