

TECVAYLI® ▼ (teclistamab) Patient Card

Carry this card with you at all times.

SHOW THIS CARD to any healthcare professional involved in your care and if you go to the hospital.

TECVAYLI can cause side effects such as Cytokine Release Syndrome (CRS) and Immune Effector Cell-Associated Neurotoxicity Syndrome (ICANS).¹

PATIENT'S NAME:

Important Safety Information for Patients

Get medical help straight away if you experience any of the following:¹

Cytokine Release Syndrome (CRS)

- Fever (38°C or higher)
- Chills
- Fast heartbeat
- Difficulty breathing
- Nausea
- Headache
- Feeling dizzy

Immune Effector Cell-Associated Neurotoxicity Syndrome (ICANS)

- Feeling confused
- Feeling less alert
- Having difficulty writing
- Having difficulty speaking
- Sleepiness
- Loss of ability to carry out skilled movement and gestures (despite having the physical ability and desire to perform them)

IMPORTANT TO REMEMBER: Stay close to the location where you received your TECVAYLI therapy for at least 2 days for daily monitoring after administration of your first three doses (usually two step-up doses and first treatment dose).¹ If you have any of the symptoms listed on this card call your doctor or seek emergency medical attention right away! These are not all the possible side effects of TECVAYLI. Tell your doctor if you have any side effect that bothers you or does not go away.

Information for Healthcare Team to Fill In

Please give this card to your healthcare team to fill in the information and return to you.

Dates of TECVAYLI injections (step-up dosing schedule):

STEP-UP DOSE 1

STEP-UP DOSE 2

FIRST TREATMENT DOSE*

*This is the first full treatment dose (1.5 mg/kg).¹

Important Safety Information for Healthcare Professionals

CRS and ICANS may occur in patients receiving TECVAYLI, and can be fatal or life-threatening. The majority of these events observed following TECVAYLI administration were Grade 1 and 2.¹

Assess the patient for signs and symptoms of CRS and ICANS. If your patient reports any signs or symptoms as referenced on this card, please contact the patient's treating physician immediately for further information.

See Summary of Product Characteristics for full details.¹

▼ This medicinal product is subject to additional monitoring. This will allow quick identification of new safety information.

Reporting of side effects

TECVAYLI is a new medicine and its safety is being closely monitored. Contact your doctor, pharmacist or nurse if you experience side effects with any medication you are taking. This includes any side effects that are not listed on the information leaflet that comes with this medication.

Suspected Adverse Drug Reactions (side effects) or medication errors may be reported using the Medicines Authority ADR reporting form, which is available online at

<http://www.medicinesauthority.gov.mt/adrportal>,

and sent by post or email to;

P: Pharmacovigilance Section at Post-Licensing Directorate, Medicines Authority, Sir Temi Żammit Buildings, Malta Life Sciences Park, San Ġwann SĠN 3000

E: postlicensing.medicinesauthority@gov.mt

Alternatively, to report Suspected Adverse Drug Reactions, contact Janssen's Local Representative, AM Mangion, on the following:

Phone (24/7): 00356 2397 6333

Email: pv@ammangion.com
